

CATALYTIC SYSTEM CLEANER

Description

BENZOL® Catalytic System Cleaner is a premium car care product engineered to restore performance and efficiency to vehicle's exhaust system. Our advanced formulation effectively removes harmful deposits and carbon buildup from oxygen sensors and catalytic converters, ensuring smooth engine operation and reduced emissions.

Applications

BENZOL® Catalytic System Cleaner is designed for use in vehicles with clogged or inefficient catalytic converters. It helps restore optimal performance, reduces harmful emissions, and improves the fuel economy by cleaning the exhaust system during normal engine operation.

Recommendation

- Add one full bottle of **BENZOL®** Catalytic system Cleaner to a nearly full fuel tank (recommended 60–80 liters).
- Drive normally to allow the cleaner to circulate through the fuel and exhaust system during combustion.
- Use every 5,000 km for best results.
- Ideal for routine maintenance and before emission tests.

Technical Specifications

Tests	Results
Appearance	Transparent Liquid
Odor	Solvent
Color	Colorless
Density at 25 °C, g/cm ³	0.790
Saturated Vapor Pressure, kPa	11.59
Water Solubility	Insoluble in water

Performance Benefits

- Cleans catalytic converters, EGR valves, and oxygen sensors
- Restores exhaust flow and reduces emissions
- Improves fuel efficiency and throttle response
- Safe for gasoline engines and all fuel system components

Direction to use

- Pour directly into the fuel tank
- 300ml for 60-80 L of fuel mixing Ratio 1: 200

Product/Part Number

CT09000644 24 x 300

HEALTH AND SAFETY

This product is not expected to have adverse health implications when used for its intended application. For detailed information on safe handling of this product, refer to its Material Safety Data Sheet (MSDS).
