

ENGINE PROTECTOR

Description

BENZOL® Engine Protector is a fast-action, multi-power oil additive engineered for high performance engines. It is engineered to improve the oil by helping to retain its normal viscosity during constant changes in temperature. By coating the engine with a film of oil, Engine oil Protector prevents premature wear, improving engine performance and prolong engine life. This product also helps stop oil burning, reduces hydraulic valve lifter noise and improves compression.

Applications

BENZOL® Engine Protector is compatible with both petroleum and synthetic oils. In addition, Engine oil Protector is recommended for use in both gasoline and diesel engines.

Direction

Put 1 Bottle 300 ml on up to 5 Liter Engine Oil.

Performance Benefits

- Maintains engine power and performance
- Improves engine power and performance
- Improves engine compression
- Improves fuel efficiency
- Maintains high viscosity properties
- Fights motor oil breakdown
- Compatible with mineral and synthetic based oils
- Engineered for both diesel and gasoline engines
- Ideal for single & multi-grade engine oils

Technical Specifications

Product/Part Number

EP05000034 24x250 EP05000644 24x300

Tests	Method	Results
Appearance	Visual	Clear & Bright
Water	Hot Plate	Nil
Color	D-1500	2.0
Density @ 15 °C, Kg/L	D-1298	0.8850
Flash Point, °C (COC)	D-92	235
Pour Point, °C	D-97	-12
Foam SEQ.I/II/III	D-892	0/0/0

HEALTH AND SAFETY

This product is not expected to have adverse health implications when used for its intended application. For detailed information on safe handling of this product, refer to its Material Safety Data Sheet (MSDS).
