

# COMPRESSOL HVI ISO-100

## Description

**BENZOL®** Compressol HVI ISO-100 is an advanced fully synthetic ash less air compressor lubricant developed for use in rotary compressors of screw or vane design, reciprocating compressors, and centrifugal compressors. Excellent foam suppression properties improve film strength and heat transfer from metal surfaces. Advanced anti-corrosion and anti-oxidation inhibitors minimize the buildup of varnish and carbon while protecting metals from rust and corrosion.

## Applications

**BENZOL®** Compressol HVI recommended for stationary and portable compressors, including compressors with oil lubricated pressure space, such as single and multistage reciprocating compressors or single and multistage centrifugal compressors.

## Specifications and Approvals

DIN 51506 VDL.

## Technical Specifications

## Performance Benefits

- Excellent low volatility characteristics give low oil consumption and reduced top-up rates.
- Meets or exceeds the major OEM requirements.
- Good oxidation stability and water demulsibility.
- Effective control of carbon deposits and sludge formation.
- Resists emulsification.
- Anti-wear and anti-rust properties.
- Minimises' equipment downtime.
- Effective control of carbon deposits and sludge formation.
